PROFESSIONAL EXPERIENCE

S&P Global

Analyst, Private Markets

Nashville, TN

March 2025 - Present

- Review and extract data from 300+ private market documents per month, including financial statements, capitalization tables, fund reports, legal agreements, and investor materials.
- Ranked as #1 analyst out of 6 based on workload, accuracy, and ability to process complex private market documentation.
- Selected for committee with managers and director to improve private equity client data workflows, contributing to an over 30% reduction in client pushbacks and data rejections.
- Partner with valuation teams to prepare financial, ownership, and operating data used in portfolio company valuation analyses across private equity and venture-backed companies.

Strategic Financial Partners

Intern, Asset Management

Memphis, TN

June 2024 - August 2024

- Supported financial planning and portfolio discussions for high-net-worth clients, analyzing asset allocation, risk profiles, and researching equities, ETFs, and mutual funds for investment recommendations.
- Won a company-wide case study competition by presenting a financial plan for a small business to a panel of 10+ executives.

Fiserv

Intern, Corporate Accounting

Milwaukee, WI

June 2023 - August 2023

- Supported financial statement preparation, variance analysis, and internal reporting at a Fortune 250 financial technology firm including research for goodwill impairment analysis and financial reporting considerations.
- Selected as one of 4 speakers out of 220+ global interns to present internship experience to 500+ associates, managers, and executives.

FINANCIAL MODELING & ENTREPRENEURIAL PROJECTS

Independent Investment Analysis

2025 - Present

- Screened more than 800 publicly traded companies and conducted qualitative and valuation analysis focused on business quality, competitive positioning, balance-sheet risk, capital allocation, and intrinsic value.
- Produced written company assessments and quarterly research letters documenting investment conclusions and the supporting quantitative and qualitative evidence.
- Evaluated companies using financial statements, industry comparisons, return-on-invested-capital analysis, valuation multiples, and conservative scenario assumptions.

The Daily Investor

2026

- Built and launched a public-facing investing and business education game, attracting 1,000+ new users, 655 game starts, and 379 completions in one month while tracking acquisition and engagement through Google Analytics.
